(Published in Journal of Project Management, Volume 2 Issue 3 pp. 93-106, 2017, ISSN 2371-8374 (Online) - ISSN 2371-8366 (Print))

**Abstract:** E-governance practices and standardization of processes are significant factors affecting the performance of government organizations and undertakings in India. Customer is the backbone of any organization and customer satisfaction is the key for ensuring the success. Using a multiple-criteria decision analysis method named TOPSIS, we attempt to study the impact of e-governance practices on customer satisfaction of Maharashtra Housing and Area Development Authority (MHADA). The method determines the ranking and contribution of different elements in an attempt to determine a suitable strategy for every customer segment. Results show that customers belonging to Higher Income Group (HIG) and Middle Income Group (MIG) are more satisfied with the Online Mitra Service while the customers of Lower Income Group (LIG) and Economic Weaker Section (EWS) are more inclined towards Process Standardization. In order to remove bias and obtain fairly accurate results, the data were collected through questionnaire from every customer segment.

■ **They Started Up!**

Three students of this institute came up with amazing idea in the form of website. There are so many Indian festivals and so many things are required to celebrate these festivals. The website [www.indfest.com](http://www.indfest.com) was designed to facilitate the end users. Ganesh Idol made up of eco friendly Shadu clay, wooden decorative material and pooja accessories were made available on this website with free home delivery. It was not easy to show the Ganesh Idols online. They have faced many difficulties because the devotees are very keen to see the idol as per their views concepts. To solve this problem they have posted the pictures of Ganesh Idol with different angles on the website. But still there was no response. After three day one devotee from Nashik booked the idol online and expressed his best wishes and support for their business. And suddenly the next ten days crossed the business worth Rs. 2.5 lakh and earned a profit of Rs.30,000/-.

Yes this is the success story of a start up by final year students Mr. Ketan Navle (Mechanical Engineering), Ms. Leena Dighole (E&TC) and Mr. Vishal Sangle (Civil Engineering). They learned a lot through this start up, not only the technology but the business logic also. Mr. Milind Phad, who is the same business from last 20 years, helped them to materialize the idea. Their families are also supporting them in cultivation of their ideas. They are planning now to launch "Wishlist" to forward the gifts and "Grape Festival".

Nashik is becoming a Smart City, smart People like Ketan, Leena and Vishal through their start up are the stepping stones. They received the motivation and guidance from the President of K. K. Wagh Education Society Hon. Shri. Balasaheb Wagh, Principal Prof. Dr. K. N. Nandurkar, Prof. M. B. Murugkar, Prof. Dr. P. K. Shahabadkar, Prof. Dr. P. B. Kushare, Prof. Dr. D. M. Chandwadkar and Prof. C. S. Mhasde.
