

RASHIKA S SURYAVANSHI

1 year as an Enthusiastic and Passionate IT programming trainer, sharing knowledge to help students understand the concepts and core practices of computer programming in today's IT Industry. I believe in lively classroom discussions and creative learning assignments, leaving no scope for failure.

Moreover I have **2+ years of experience in JAVA, VB.net and Excel VBA development** and have worked on **End to End projects, which includes both Designing and Development.**

Further I want to be associated in the field of sharing knowledge as a college lecturer where I can share my IT knowledge and Industry experience to groom aspiring students to the best.

Work Experience

2018-2019 IT Technical Trainer for MCA/BCA Aspiring Students

JAVA, C,C++,Data structure,C#

- Assessing students strength and weakness and planning teaching instructions accordingly
- Developing and delivering lecture in easy to understand way
- Researching and preparing teaching materials and demonstrating each logical steps in computer programming
- Assigning real IT projects and assessing and discussing students' work
- Customised study pattern for students for better understanding and attain higher scores.

Summary:

Since I started my career as a developer, which helped me to bridge the gap between, the teaching and the actual practices in the real industry. So I devised ways to focus not only the learning part of the students, but also share experiences about the entire life cycle of the project, so that the students are already equipped to the company standards.
